

## Quality Policy

We, at Sprng, are committed to continually improve quality of our operations and associated processes. We believe that continual improvement adds value to its stakeholders. This policy demonstrates Sprng's commitment to meet and exceed stakeholders' expectations to deliver best in class quality assets and services consistently. We are committed to achieve this through-

- Conducting detailed study / due diligence during project selection and execution
- Close monitoring and evaluation of our projects during the complete life cycle
- Continually adapting & implementing best practices across life cycle of our projects
- Establishing, maintaining and practicing a certifiable Quality management system (ISO: 9001)
- Providing adequate training and resources to accomplish our quality requirement

This policy is applicable to all business and project related activities of Sprng Energy. All employees and contractors of Sprng are required to adhere with this policy.

A handwritten signature in black ink, appearing to read "Gaurav Sood", is written over a horizontal dashed line.
