

QUALITY & ASSET MANAGEMENT POLICY

Scope and applicability:

The Policy is applicable to renewable power generation business processes for all the assets of SPRNG Energy (Wind & Solar Projects). All employees, workers and associates of SPRNG Energy are required to adhere to this policy.

Policy Objectives and Commitment:

We believe all our processes should have the best quality approach within scope of our operations considering the context of the organization and strategic decisions.

SPRNG is committed to achieving this through:

- Ensuring that all our business activities are in compliance with applicable product regulations and applicable laws, legislation and regulations for all sites
- Adopting a systematic approach for identifying risks and mitigating quality in process and services of our business
- Close monitoring of projects during the complete life cycle. Conducting detailed study / due diligence during project selection and execution.
- Voluntarily establishing, maintaining and practicing a certifiable quality and asset management system (ISO 9001:2015; ISO 55001:2014). Supporting to environmental management system (ISO 14001:2015) and occupational health and safety management system (ISO 45001:2018)
- Continually adapting and implementing best practices across life cycle of its projects. Ensuring that continual improvement in activities, wherever feasible. Maintaining and proactively improving our management systems to strengthen and improve processes and minimize risks to our customer & other stakeholders. We strive to continually improve customer satisfaction & quality performance of our business operations
- Communicating this policy to all stakeholders by suitable means, followed by a periodic review of improvements in a continuously changing business environment
- Raising awareness among all our stakeholders through providing education, training & resources to accomplish our quality commitments and goals

We, at Sprng, are committed to practicing, promoting, and providing necessary resources to effectively implement the quality and asset management policy of the company.
